Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 07/10/2008 has been entered.

Claims 1, 6, 7, 9, 11, 15, 42 are pending.

Response to Applicants Remarks:

Claim Rejections - 35 USC § 112

Applicants amendments to claims and persuasive arguments overcome the previously presented rejections under 35 USC § 112.

Claim Rejections - 35 USC § 101 and 35 USC § 102

Applicants amendments to claims and persuasive arguments overcome the previously presented rejections under 35 USC § 101 and 35 USC § 102.

New Rejection:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1, 6, 7, 9, 11, 15, 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Abdulla et al. (EP 273602).

The instant claims are *drawn to compounds* of formula I, excluding compounds of structure B

Formula I

Excluded Structure B

wherein the variable A includes Br and R1 includes S-alkyl. Applicants' compounds are alleged to have the glutamate receptor function.

Abdulla et al. (EP 273602) teach the following compounds that have biological activity (herbicidal activity)

The difference between the prior art and the instant claims is halogen substituent. The instant claim limitation excludes chloro substituent. Halogens are suggestive of one another in the art of medicinal chemistry for the optimization of biological properties. Further, it is routine practice in the art of drug discovery/medicinal chemistry to identify alternate receptor functions for biologically active compounds using such techniques as High-throughput screening. The instantly claim would have been suggested and thus obvious to one skilled in the art.
